Disclaimer, I've only got a low play time on this product.

From what I've played this game is a good puzzle game, similar in some ways to Stephen's Sausage Roll but a bit easier.

I'm not a massive puzzle game fan (in general), but Dis Pontibus combines a nice aesthetic, the main character is a cute little robot, with some quite tricky puzzles. I solved a few, more than in the aforementioned Stephen's Sausage Roll (which was just too tough).

Gameplay synopsis: You move different blocks around by walking on them, in order to try to make a bridge to the next island, if the pieces aren't connected edge to edge then they fall off into the sea (but you can undo that move), some of them have different abilities -pivoting around specific points, one that is kind of snake like and can bend.

Best feature? The Z button allows you to reverse each step you've taken up until the puzzle is reset, in case you have made a mistake somewhere in the process of solving a puzzle.

Worth a shot if you like cute but tricky puzzle games like Snakebird/Stephen's Sausage Roll etc, at a very reasonable price, from a small team (I think it is from a solo dev?), and should have replayability due to being able to procedurally generate sets of puzzles for the player. The puzzles feel like you can work them out with enough patience/inspiration.

I wish I could comment on the later puzzles but lack the patience to carry on playing (as I said, I'm not really a massive puzzle game player, my genre preference tends to be RPGs/action adventures/survival games)..

Step One: Buy and install this DLC

Step Two: Run Crypt of the Necrodancer

Step Three: Use Custom Music option to change every single level's song into Notorious D.I.G. (Fortissimole)

Step Four: Play the game

Step Five: Appreciate true art

Now that the Amplified DLC is out of early access this DLC includes 9 songs. 5-1, 5-2, and 5-3 both shopkeeper and non-shopkeeper versions, and the three boss songs.

(I would seriously have bought this DLC at full price just for Notorious D.I.G. It's a bonus that I got all the other songs too :D ).

To summarize this game, Jet Gunner is a 2D side-scrolling 8-bit game with very simple controls. It's kind of like those classic Mega Man games. In Jet Gunner, you only need to run, jump and shoot. It's really good in my opinion and I would recommend this game.. I just purchased this Loco and for me it only rolls down the track. I can only control the speed inside of the cab. None of the controls work and the valve \u2665\u2665\u2665\u2665\u2665 wont close like the bigboy. It has a loud steam hissing sound that never leaves . you can hardly hear the train sounds for this noise. I can not find a way to fix it. It should have worked when sold or give a refund. Problem is after 2 hours there is no refund! I have the same problem with the Big boy. I have two new locos that are useless to me. they never worked from the time I purchased them. Im not happy with , and dont trust any purchases I make for this game.. Looks kinda like poop and its quite easy but there's awesome weapons and enough zombies to use them all on. All in all B+. Would bang. Try the demo.

i recommend this peice of DLC because its a USATC s160 for trainz.

even though it doesn't come with the british version its still decent.. One of the best strategy games ever made. I wish they would have done another sequel after Jagged Alliance 2.Highly recommended. Now get off my lawn.. A very fun physics based music sandbox of sorts, if your a fan of music and like the animusic series this game is a must. Fair dues, it has less clipping issues & glitches than Rothschild: The Sheep Will Awake which also uses this engine, but it suffers from the same problem where you get sound triggers which I assume are jumpscares happening but they trigger regardless of where the players field of view is so you just get stabs of audio.

It has a horrendous stamina system which made the first playthrough longer (22 minutes first playthrough).

It is mainly checking doors, collecting some keys & 2-3 environmental observation puzzles with a P.T. Hallway thrown in. If you are okay with spending \$3 for less than 30 minutes of gameplay, you can do worse on Steam.

I don't know what that running man is in the screenshots though as according to my in game shadow, I play as a nude woman & I didn't see him or that cutscene in the game.. Gameplay: <https://youtu.be/PMMImoFTQws>

Guns n Stories is a Virtual Reality FPS game set in Wild West. There are different acts, consisting of different stages which are defined by different locations, and you are required to shoot your way through each stage, to face a boss at the end of each act. Throughout each of the stages you encounter different enemies, and there are global leader-boards, adding a competitive aspect to the game. The narrative provided by Grandpa, alongside the fact that each stage of the story is set in a different environment, results in a shooter that is engaging and fun to play.. A great game for those of you with young kids. It nicely balances that delicate tightrope between compelling gameplay and educational content, which is sometimes a challenge if a child thinks the game is more classroom lesson than fun. Take a look. You will not be disappointed.. This is a quick and fun tower defense style game. As other reviewers have said it's not really one of great depth and once you've got the hang of spamming archers then most levels are straightforward.

This is also a simple game to get "perfect game" with 15 do-able achievements and a useful guide to getting them all is on the community page. Took me under 4 hours play time to complete and get perfect game.

My one annoyance with this game is the game board doesn't quite fit on one screen and the scrolling is clunky.. ok wow great game guys !!! now to the eurotruck sim guys ,and ats guys that are waiting for an aussie truck sim this is it till the next one is created , and too the people who miss the iceroads of mexuscan map in ats the ice road textures were taken from this game this has aussie outback and ice roads included the game is awesome thanks scs !!!! 8 out of 10 would of been 10 out of 10 but we have seen the graphics of ats and ets 2 now .....EXTREME//..... I really like this game, it isn't the best in anything, the story and voice acting aren't very good, but the game is a lot of fun. There are a lot of different cars, ranging from sports cars to trucks and the car's damage physics are good too.

The maps (highway and city) are not huge, but big enough for the game and they look quite realistic. The story missions are also quite unique and fun (and if you complete the story you will unlock some additional "stunt" levels).

You can also freely drive around the city or play fully customizable "quick races" against AI opponents or in split-screen (up to 4 players) on the tracks used in the story. I also recommend you to use the cheat code "WANNAGO" (it can be entered during gameplay or on the pause menu) when playing split-screen races to turn off auto-respawn so you can won't automatically reset every time you go off-track, or drive freely around the city in split screen.

Another good thing about this game is that is is quite easy to mod, there are lots of car mods available. i've made this steam guide on how to install mods: <https://steamcommunity.com/sharedfiles/filedetails/?id=1170453435>. Holy crap! Galaxy Trucker!

It's a port of the mobile version, but that's not a complaint. I freaking love that game.

With the mouse controls being more accurate, I definitely prefer the PC version over mobile.

So stoked this came out, been looking for a PC version for ages.
